Date: 26th March 2024

Number of Participants: 54

Venue: Oxygen Acres, Mysore

An Industrial visit was organized for the 6th semester B. Com students on 26th March 2024 to "Oxygen Acres", a dairy farm in Mysore. Mrs Drishya K P, HOD of

Commerce, and Mrs. Malini, Assistant Professor, Department of Commerce were part of the visit.

Oxygen Acres is situated at Aregowdana Halli, Varuna Mysore. It is one of the producers of organic dairy products like paneer, fresh cream, cheese like feta, mozzarella, and organic ghee. While there are many organic farms and milk producers, Oxygen Acres stands out due to its immense focus on preserving freshness, and hygiene by providing high-quality dairy products and sustainable farming practices.

Students and faculty members left the college campus at 7:00 am and reached the venue at 11:00 am. After the security check, the students were taken to the introduction room and also explained the process and operations undertaken by the dairy farm. They were also explained the uses of the goobar gas system and how important it is to serve and consume unadulterated food products in order to safeguard one's health.

Further, after the interaction lunch was served at the premises, also students expressed their views as it was a great opportunity to witness and learn practically through experience and interaction with the members of staff and headed back towards the college and reached at 7:00 pm.
